Examiner's Amendment

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C.

121:

- I. Claims 1-35, drawn to an Apparatus for Removing Underwater Debris, classified in class 210, subclass 170.
- II. Claims 36-38, drawn to a Method for Removing Debris from a Reservoir, classified in class 210, subclass 767.

The inventions are distinct, each from the other because of the following reasons:

Inventions of Group II and Group I are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the apparatus as claimed can be used to practice another and materially different process, such as in the emptying of a septic tank.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II and vice versa, restriction for examination purposes as indicated is proper.

During a telephone conversation with Mr. Bruce H. Johnsonbaugh, Esq., on November 18, 2004 an election was made without traverse to prosecute the invention of Group I, claims 1-35. Claims 36-38 have been withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Johnsonbaugh on November 19, 2004.

The application has been amended as follows:

Claim 1, line 1; "Apparatus for ... golf course" was changed to:

—In a golf course recirculating irrigation system including a reservoir, the improvement comprising an apparatus for removing underwater debris from said reservoir of said golf course—

**Claims 22-35 and non-elected claims 36-38 have been
CANCELED.**

Telephone Interview Summary Record

The Examiner contacted Mr. Johnsonbaugh on November 19, 2004 to propose the above amendment in order to put the case in condition for allowance. Mr. Johnsonbaugh agreed to the above Examiner's Amendment.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or fairly suggest the combination of a golf course recirculating irrigating system including apparatus for removing underwater debris as set forth in independent claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert J Popovics whose telephone number is (571) 272-1164. The examiner can normally be reached on Monday through Friday between 2:00 PM and 6:00 PM.
